Maryland Chemical Company has extensive experience servicing customers in industry and government with applications in bioscience, construction & environmental protection/remediation, food and beverage processing, manufacturing, transportation, and water/wastewater treatment. We have an extensive network of proven, reliable suppliers and were selected a 2012 critical infrastructure model site by Dept. of Homeland Security. We received the Eagle Group certification for Third-Party On- Site Verification of Responsible Distribution, recognizing continuous improvement in environmental performance, health, safety and security. We are a member of the National Association of Chemical Distributors.
